

Implementation Goals

FOR ADMINISTRATORS

Use this guide as you craft your DreamBox implementation goals.

ADMINISTRATOR BEST PRACTICES

- Set expectations for student usage.
- Monitor usage and data.
- Encourage educator dashboard usage.
- Provide feedback and celebrate success.

EDUCATOR BEST PRACTICES

- Set weekly goals.
- Support student agency.
- Monitor your dashboard.
- Provide feedback.
- Celebrate Progress.

STUDENT BEST PRACTICES

- Try every problem and finish every lesson.
- Utilize in-lesson support.
- Use headphones with volume on to listen to directions, assistance, and feedback.
- Use the virtual tools and manipulatives rather than paper and pencil.
- Work independently.

QUESTIONS TO CONSIDER WHEN CREATING YOUR IMPLEMENTATION GOALS:

- Who is leading the charge to encourage educator and student usage?
- How does DreamBox support our instructional vision for mathematics?
- What is the desired end of year outcome of our DreamBox implementation?
- How and when will DreamBox be used?
- What are our potential barriers and how will we address them?
- Who are our targeted users?
- What is our student weekly goal for lesson completion?*
- What is our educator weekly goal for monitoring student DreamBox data?
- How do we plan to support educators in monitoring student usage?
- How will we communicate implementation goals to educators?
- How do we plan to acknowledge, celebrate, and replicate high usage?
- How are we going to connect with families and learning guardians?

We recommend students complete 5+ lessons per week.
